

LUMOS DENTAL MEMBERSHIP PLAN

As a Lumos Dental patient, you are part of our dental family. We are here to support your goals to improve and maintain optimal oral health. We believe your commitment to excellent dental health shouldn't be compromised due to affordability.

Many living with limited dental insurance benefits or without a dental care plan find it difficult to obtain essential dental treatment. Even people with dental health insurance often find their access to treatments is restricted. These barriers can prevent you from receiving the necessary dental care to maintain good oral health or can cause unexpected out-of-pocket expenses.

We will never compromise our commitment to your health which is why we are offering the Lumos Dental Membership Plan.

A MORE FLEXIBLE WAY TO CARE FOR YOUR ORAL HEALTH

Lumos Dental Membership Plan is a pre-paid yearly in-house savings plan designed to help our patients maintain optimal oral health without relying on an insurance company to off-set the cost of necessary dental treatment.

We realize our in-house membership plan won't be right for everyone, which is why we offer other financial solutions. Our aim is to ensure you can always receive the treatment you need or desire without limitation.

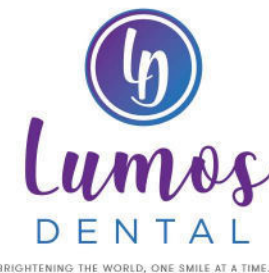

We would love to answer questions and schedule appointments for your entire family.
